The **ICCS'10** Program Committee invites submission of papers and posters for the Technical Program of the **18th International Conference on Conceptual Structures**. Since 1993 the focus of the conference (held in Europe, Australia, North America etc.) has been the representation and analysis of conceptual knowledge for research and practical applications. ICCS brings together researchers in information and computer science as well as social sciences to explore novel ways of deploying conceptual structures. The **ICCS 2010** theme is   **"From Information to Intelligence"**.

TOPICS OF INTEREST include but are not limited to:

- Graph based knowledge representation and reasoning;
- Conceptual knowledge acquisition;
- Conceptual data processing, analysis and conceptual logic;
- Interplay of conceptual structures with language, semantics, semiotics and pragmatics;
- Representation and reasoning with conceptual structures;
- Applied conceptual structures.

IMPORTANT DATES:

- Deadline for electronic abstracts: **5th January 2010**
- Paper submission deadline: **8th January 2010**
- Notification of acceptance / rejection: **5th March 2010**
